## PROJECTS

### FEST WEB APP FOR MY COLLEGE |

A web app/website to get participant registration, Events details,

Features:

- User/Participants Can register themselves for events.
- Viewer Can Track Events, Winner List, Moments, watch Gallery
- Participants Can track their Record.

Tech Used:- HTML | CSS | JavaScript | MySql

Areas Of responsibility :-

- Developed the Whole Project and Maintained by Myself

### SORTING VISUALIZER |

A web app to use the sorting algorithms

Features:

- Currently available sorting algorithms- Bubble sort, Selection sort, Insertion sort, Merge sort, Quicksort (I will plan to bring more algorithms in action to visualize & more changes).
- You can change the size of the array
- You can change the speed of the visualization

Tech Used:- HTML | CSS | JavaScript

Areas Of responsibility :-

- This was my first project which I was deploying the website live. This was a great learning experience for me creating a full application from scratch.

## PERSONAL INTEREST

- Poem Writing
- Playing Cricket
